Anudeep Reddy Veerati

Software Development Engineer

+91-9676451605 | anudeepreddy016@gmail.com | linkedin.com/in/anudeep-reddy-veerati | github.com/VeeratiAnudeepReddy | Hyderabad, India

Education

VNR Vignana Jyothi Institute of Engineering and Technology **Hyderabad, India**

Bachelor of Technology in Computer Science and Engineering; CGPA: 9.37/10.0 *2024 – 2028*

Technical Skills

Languages: C++, Java, Python, JavaScript, Kotlin, C, SQL, HTML, CSS

Frontend: React.js, Next.js, Tailwind CSS, Three.js, React Native, Flutter, Android

Backend: Node.js, Express.js, FastAPI, REST APIs, Socket.io

Databases: MongoDB, PostgreSQL, Firebase, Supabase, ChromaDB

AI / ML: scikit-learn, YOLOv8, OpenCV, NumPy, Pandas, LLM APIs, RAG

Tools: Git, GitHub, Cursor, Claude Code, GitHub Copilot

Core CS: Data Structures and Algorithms, OOP, DBMS, Operating Systems

Experience

Full Stack Developer Intern **Feb 2026 – Apr 2026**

PSNM Innovations *Remote*

- Architected **StudyAI**, an AI learning platform that turns study material into **4 formats**: explanations, quizzes, flashcards, and study plans.
- Engineered REST APIs and LLM-based content generation, delivering the platform within a **3-month** internship.
- Created **2 admin tools** (an analytics dashboard and a content-moderation console) to track user activity and platform content.

Product Team Member – Pothole Mapper **2025**

VNR Vignana Jyothi Institute of Engineering and Technology *Hyderabad, India*

- Co-developed a community pothole-reporting tool and ran user-feedback cycles to improve usability.

Projects

PondFix – Smart Aquaculture Monitoring | *Next.js, React Native, Node.js, Socket.io, MongoDB, scikit-learn* GitHub

- Spearheaded an IoT platform tracking **3 water-quality parameters** across **17 ponds**, streaming live readings to web and mobile apps via Socket.io.
- Engineered an Express.js ingestion API that validates telemetry and stores it in MongoDB, with a simulator for live and anomaly data.
- Trained a scikit-learn model on **72,750+ readings** to forecast water quality **3 hours ahead**, triggering alerts that escalate to automated voice calls.
- Integrated a multilingual RAG chatbot (Groq, ChromaDB, Sarvam) and a YOLOv8 service that flags inactive fish.

Privacy-Preserving Vision Agent | *Python, FastAPI, Chrome Extension, OCR, Presidio* GitHub

- Created a browser agent that redacts PII locally (OCR, DOM extraction, Presidio/NER) before any external AI call.
- Combined a Chrome Extension and FastAPI backend to give agents sanitized screen and DOM context.
- Orchestrated a **5-stage** pipeline: task parsing, planning, browser actions, verification, and failure recovery.

AI-Based Urban Traffic Flow Optimization | *Python, YOLOv8, OpenCV, SUMO* GitHub

- Reduced vehicle waiting time by **29.89%** versus fixed-timing signals in SUMO simulation.
- Constructed a YOLOv8/OpenCV detection pipeline blending **70% predicted and 30% live** traffic data.
- Programmed a timing engine that adjusts green phases by **+10s/-11s** per direction.

Civix – Civic Issue Reporting Platform | *Full Stack, GPS Geolocation, AI Validation* GitHub | Live

- Launched a GPS-tagged reporting platform with AI report validation, reaching **50+ users** in testing.

AI Railway Optimization Platform | *Python, Graph Algorithms, CP-SAT* GitHub

- Mapped **8,737 stations** into an accessible route finder covering **64%** of the railway network.
- Optimized routes by modeling schedules as time-expanded graphs solved with CP-SAT.

Achievements

- **Runner-Up, VJ Hackathon** – among **10,000+ participants**.
- **1st Place, Convergence 2K26 Software Hackathon** – Intelligent Shipment Piggybacking (NetworkX).
- **1st Place, Convergence 2K26 Project Contest** – Traffic Optimization; featured in India Education Diary.
- **1st Place, Webathon 4.0** – Civix, among **1000+ participants**.
- **First Runner-Up, VNR Designathon 2026** – Top 30 of **2800+ registrations**.
- **CodeChef 2-Star** (rating 1420); **Finalist**, Solution Sprint Ideathon.

Certifications

- Microsoft Certified: Power BI Data Analyst Associate
- ServiceNow Virtual Internship – SmartBridge
- Generative AI – Udemy

Leadership

- **Chairperson**, Gamma Club (Research Club of VNRVJIET) – head student research initiatives.
- **Action Committee Member**, Turing Hut Coding Club – selected from **900+ students**.
- **Member**, Computer Society of India (CSI).
